Tower 41 Newsletter

If you have anything special you would like to share with the residents of the Tower 41 Condominium, please let the manager know by the last day of each month so we can include it in the following month's newsletter.

A Little Bit of Humor...

According to the Alaska Department of Fish and Game, while both male and female reindeer grow antlers in the summer each year, male reindeer drop their antlers at the beginning of winter, usually late November to mid December. Female reindeer retain their antlers till after they give birth in the spring. Therefore, according to every historical rendition depicting Santa's reindeer, every single one of them, from Rudolph to Blitzen - had to be a female.

We should've known. Only women would be able to drag a fat man in a red velvet suit all around the world in one night and not get lost.

Capturing Holiday Lights

Photographing the spectacular lighting displays found during the holidays often proves to be a challenging feat. Here are a few ideas that may help you achieve more than just a “beautiful blur” to cherish. To get the best results outside in the evening, start by loading your camera with a “fast” film - one with a high numbered speed rating. If you have a tripod, use it to steady the camera; otherwise, brace yourself against something sturdy (a tree, fence or building), hold your breath and gently squeeze the shutter button on your camera. Be sure to turn off or cover the flash before shooting, and if your camera has adjustable shutter speeds, set it to 1/15 or 1/8 second. If it’s freezing cold outside, keep your camera warm inside your coat and bring along an extra camera battery. For indoor lights, the same rules apply. Again, a fast film will help you capture the glow of a roaring fire or your Christmas tree lights. A slightly “slower” film will help ambient light to register on the film and still let you use your camera’s flash to freeze the action of a young child opening his first present. **Good Luck and May Your Holidays Illuminate with Cheer!**

Safety Tips for Holiday Decorating

- ✓ Keep your Christmas tree away from fireplaces, radiators, and other heat sources that can cause a fire.
- ✓ Check lights for broken sockets, frayed or bare wires, as well as any loose connections. – Be sure to use indoor lights only indoors, and outdoor lights outdoors.
- ✓ Turn off all lights on your tree and decorations when you go to bed or leave the house.
- ✓ Use only tinsel made of material that is nonleaded and nonflammable.
- ✓ Place the menorah and other candles out of the reach of children. Never leave burning candles unattended, and always supervise children when they’re near candles.
- ✓ When buying an artificial tree, choose one that has been labeled fire-resistant.
- ✓ Use no more than three light sets on any one extension cord.
- ✓ Many Christmas plants, including mistletoe, holly berries, and amaryllis can cause severe stomach problems if eaten. Keep them out of children’s reach.
