Don't Forget: *Spring Forward...Fall Back...*

Daylight Saving Time begins for most of the United States at 2 a.m. on the **Second Sunday in March** and lasts until 2 a.m. on the **First Sunday of November**.

**Be sure to set your clocks
ahead one hour at
2 a.m. on
Sunday, March 8, 2020**

This is also a great time to change the batteries in your smoke and carbon monoxide detectors. Many fire departments encourage people to change their batteries in these detectors when they change their clocks, because it can be so easy to forget otherwise. "A working smoke detector more than doubles a person's chances of surviving a home fire," says William McNabb of the Troy Fire Department in Michigan. More than 90 percent of homes in the United States have smoke detectors, but one-third are estimated to have worn-out or missing batteries.

Scooter/ Motorcycles & Bikes

Parking is required as we no longer allow parking on the ground level floor. Parking Fee: Scooters are \$35 monthly, Motorcycles are \$50 Monthly and Bikes are \$25 yearly. Must be registered in the office by resident in order to park.

Empty Boxes

LEAP YEAR FEBRUARY 29

What Is a Leap Year? Simply put, a leap year is a year with an extra day—February 29—which is added nearly every four years to the calendar year.

Why Are Leap Years Necessary? Adding an extra day every four years keeps our calendar aligned correctly with the **astronomical seasons**, since a year according to the Gregorian calendar (365 days) and a year according to Earth's orbit around the Sun (approximately 365.25 days) are not the exact same length of time. Without this extra day, our calendar and the seasons would gradually get out of sync. Because of this extra day, a leap year has 366 days instead of 365. Additionally, a leap year does not end and begin on the same day of the week, as a non-leap year does.

How Do You Know If It's a Leap Year? Generally, a leap year happens every four years, which, thankfully, is a fairly simple pattern to remember.
