DON'T FORGET...

Spring Forward...Fall Back...

Daylight Saving Time begins for most of the United States at 2 a.m. on the **Second Sunday in March** and lasts until 2 a.m. on the **First Sunday of November**.

**Be sure to set your clocks back one hour at
2 a.m. on November 1, 2020.**

This is also a great time to change the batteries in your smoke and carbon monoxide detectors. Many fire departments encourage people to change their batteries in these detectors when they change their clocks, because it can be so easy to forget otherwise. "A working smoke detector more than doubles a person's chances of surviving a home fire," says William McNabb of the Troy Fire Department in Michigan. More than 90 percent of homes in the United States have smoke detectors, but one-third are estimated to have worn-out or missing batteries.

QUOTATIONS: OCTOBER

- Autumn is a second spring when every leaf is a flower. -- Albert Camus
- October is a symphony of permanence and change. -- Bonaro W. Overstreet
- There is something in October sets the gypsy blood astir. We must rise and follow her; When from every hill of flame, She calls and calls each vagabond by name. -- William Bliss Carman
- What I really want from music. That it be cheerful and profound like an afternoon in October. That it be individual, frolicsome, tender, a sweet small woman full of beastliness and charm. -- Friedrich Nietzsche
- There is no season when such pleasant and sunny spots may be light on, and produce so pleasant an effect on the feelings, as now in October. -- Nathaniel Hawthorne
- October is the fallen leaf, but it is also a wider horizon more clearly seen. It is the distant hills once more in sight, and the enduring constellations above them once again. -- Hal Borland
- Listen! The wind is rising, and the air is wild with leaves. We have had our summer evenings, now for October eves! -- Humbert Wolfe
- October. This is one of the peculiarly dangerous months to speculate in stocks in. The others are July, January, September, April, November, May, March, June, December, August, and February. -- Mark Twain

October Is Breast Cancer Awareness Month

How can I find breast cancer early?

The best way to find breast lumps that may be cancer is to do 3 things:

- Have regular mammograms.
- Have your doctor check your breasts.
- Check your breasts yourself every month.
- Doing all of these things gives you the best chance to find cancer as early as you can. Finding breast cancer early makes treatment much easier and more effective. More than 90 out of 100 women whose breast cancer is found early will be cured.

Changes to look for in your breasts

- Any new lump (which may not be painful or tender)
- Unusual thickening of your breasts
- Sticky or bloody discharge from your nipples
- Any changes in the skin of your nipples or breasts, such as puckering or dimpling
- An unusual increase in the size of one breast
- One breast unusually lower than the other

For more information you can visit the American Cancer Society's breast cancer Web site at www.cancer.org/ or call 800-ACS-2345. You can also visit the Breast Cancer Network's Web site at www.breastcancer.net.
