Hurricane Season is Fast Approaching. Are you prepared? Hurricane Season is June 1 to November 30

Hurricane preparedness is a natural part of living in Miami-Dade County. Below are some key tips to include in your personal hurricane plan. Make sure everyone in your household knows what they are supposed to do.

Have disaster supplies on hand.

- Flashlight and extra batteries
- Portable, battery-operated radio and extra batteries
- First aid kit and manual
- Emergency food and water
- Non-electric can opener
- Essential medicines
- Cash and credit cards
- Sturdy shoes

Check your insurance coverage and be sure it includes replacement coverage, especially for renters.

Evacuation Plans:

- **Rehearse your evacuation plan** with your household and leave extra time for traffic.
- If you live in an evacuation zone, make plans to move inland to a friend or family member's home.
- If you are electrically dependent you should evacuate for any category of tropical storm or hurricane.
- Residents who may need assistance evacuating from disaster should

register for the Emergency Evacuation Assistance Program by calling the Office of Emergency Management at (305) 513-7700 to receive an application.

Communications:

- **Assign** someone in your home the job of a checking the weather everyday during Hurricane Season.
- **Develop an emergency communication plan.** In case family members are separated from one another during a disaster (a real possibility during the day when adults are at work and children are at school), have a plan for getting back together.
- **Ask an out-of-state relative or friend to serve as the "family contact."** After a disaster, it's often easier to call long distance. Make sure everyone in the family knows the name, address, and phone number of the contact person.

Water Is Life:

- The most important part of your hurricane kit is water. Have 1 gallon per person per day.
- Your water heater can store several gallons of fresh water to use if there is no water pressure, especially in high-rise buildings.

HAVE A SAFE AND HAPPY MEMORIAL DAY

Memorial Day marks the beginning of the summer recreation season. It is also a time for accidents. Make sure that you and your family are safe this Memorial Day weekend by remembering these simple safety tips.

DRIVE SAFELY

More people will be on the road on Memorial Day weekend, making for congested roads and highways. Don't forget to always wear your seatbelt, and observe all posted traffic signs and speed limits. It is especially important for children to be in proper child safety seats in your car. And never drink and drive!

PLAY SAFELY

If you are going to be spending time near or on the water, don't forget to be safe. If you will be on a boat, wear a life jacket, follow all boating rules, and don't operate a boat while drinking. If you will be swimming, remember to swim with a buddy, swim only in safe water, and never dive into shallow water. All children should be supervised at all times around any type of water. If you will be spending any time in the sun, don't forget to use sunscreen and wear a hat.

Ask me about your options to refinance your house with almost zero out of pocket!

Detect-a-Leak Week

Detect-a-Leak Week is held annually every May. This is the perfect time to give your home a once over, checking for leaks that may be costing you money! Even a small leak can add up to hundreds of dollars a year, and could damage surrounding fixtures, cabinets, or floors.

One of the biggest culprits is the toilet. You often cannot tell if your toilet is leaking simply by examining it. Place a few drops of food coloring, just enough to slightly color the water, in the main tank. Let it sit for several hours, then check the toilet bowl. If you see the color in the bowl, you have a leaky toilet and it needs to be repaired. Check for dripping faucets, pipes, and connections by examining all plumbing in your home. Use a lightweight cloth to wipe around each connection. If your cloth becomes wet, you have leaky plumbing that needs to be repaired.

Don't forget to stop those leaks that you can control! Turn faucets off all the way. Don't let water run when you brush your teeth. And don't use your toilet as a wastebasket. Instead of throwing items such as tissues in the toilet and flushing, use a small wastebasket in your bathroom instead.
