MESSAGE FROM THE BOARD

We hope this email finds everyone well.

SEAWALL

Our contractor has now delivered a new barge with additional equipment to break through the very difficult coral.

PARKING GARAGE

Our contractor is moving forward with the repair. They are working simultaneously with the columns and drainage. Our engineer is checking the columns to verify the repairs required for each column that needs addressing as well as the repairs to the drainage.

FRONT

We are still working with the City and making some minor changes to the plans. We are presently adjusting the plans for the porticos. Unfortunately, until the seawall and parking garage are 99% complete, we cannot start the front. That being said, we are pushing forward to be ready to start the front as soon as possible.

CLUBHOUSE ROOF

We are in the process of finalizing the contract and should be in a position to move forward with a signed contract within the next week.

MASKS

We are requiring everyone in the common areas to wear masks. Noncompliance is a violation and a fine will be levied. Please cooperate and let's keep Eldorado residents safe.

MANAGER

We are sorry that our Manager, Dan, has left for another opportunity outside of the management company. We are happy to advise that we will be welcoming a new Manager, William Connor, as our new Manager, in the next couple of weeks.

ADMINISTRATIVE ASSISTANT

We should have a new Administrative Assistant shortly.

Please stay safe and healthy.

Hurricane Trivia

- Hurricanes were first named by people living in the West Indies. The name chosen was based on which saint's day it was when the storm hit.
- Around the end of the 19th century, an Australian meteorologist began giving women's names to tropical storms and hurricanes.
- It wasn't until 1953 that the U.S. National Weather Service started using women's names for storms. In 1979, men's names were added.
- A list of names is put together that includes names beginning with every letter of the alphabet except Q, U, and Z.
- Today, the World Meteorological Organization uses six lists in rotation, reusing the same list every six years. If a hurricane is particularly deadly or costly, the name is retired and a new name is chosen.
