## Hurricane Trivia

- Hurricanes were first named by people living in the West Indies. The name chosen was based on which saint's day it was when the storm hit.
- Around the end of the 19th century, an Australian meteorologist began giving women's names to tropical storms and hurricanes.
- It wasn't until 1953 that the U.S. National Weather Service started using women's names for storms. In 1979, men's names were added.
- A list of names is put together that includes names beginning with every letter of the alphabet except Q, U, and Z.
- Today, the World Meteorological Organization uses six lists in rotation, reusing the same list every six years. If a hurricane is particularly deadly or costly, the name is retired and a new name is chosen.
