## Tis' The Season To Be Jolly

The Holiday spirit certainly has all of us here on the Maison Grande staff feeling pretty happy and jolly. Here's hoping the spirit has caught you as well. From all of us to all of you, have a very Happy Holiday season and a Happy and Healthy New Year!

# SAFETY TIPS FOR HOLIDAY DECORATING

The holiday season can bring lots of joy into our homes, but it's also a time for potential safety hazards. The following tips from the National Safety Council will help your family have a safe holiday.

### Exterior Decorations

- Do not overload circuits with too many lights. Only use lights that are rated for outdoor use.
- Make sure that any extension cords running power to exterior lights are shielded from moisture and protected from the weather.
- Secure all exterior decorations to prevent accidents caused by wind or heavy snow.

### Interior Decorations

- Do not buy a dry Christmas tree. Remember to water your tree every day.
- When buying an artificial tree, choose one that has been labeled fire-resistant.
- Keep the tree away from your fireplace, radiators, and other heat sources that can cause a fire.
- Check lights for broken sockets, frayed or bare wires, as well as any loose connections.
- Use no more than three light sets on any one extension cord.
- Be sure to use indoor lights only indoors, and outdoor lights outdoors.
- Turn off all lights on your tree and decorations when you go to bed or leave the house.
- Use only tinsel made of material that is nonleaded and nonflammable.
- Place the menorah and other candles out of the reach of children.
- Never leave burning candles unattended, and always supervise children when they're near candles.

Many Christmas plants, including mistletoe, holly berries, and amaryllis, can cause severe stomach problems if eaten. Keep them out of children's reach.

## SNOW RIDGE ICE WINE

Real icewine can only be made reliably every year in Canada and most years in Germany because it requires a very specific climate. The grapes have to stay on the vine until the winter, usually until Jan or Feb, where they freeze solid at -9 degrees Celsius (15 Fahrenheit). Until the grapes are harvested, they freeze and thaw repeatedly, and all of the flavors get concentrated, with a lot of the water lost. They are then pressed in a hydraulic press when they are still frozen solid. The water remains behind in the press as solid ice. What comes out is the essence, a thick syrup of the grape with tremendously concentrated flavors and sugars. When it's fermented, it makes this beautiful sweet dessert wine. When you smell and taste it, you're right away struck with its tremendously powerful aroma and flavor.
