Hurricane Season is Here. Are you prepared? Hurricane Watches and Warnings

Each year, from June 1 through Nov. 30, an average of six hurricanes form in the Atlantic Ocean, Gulf of Mexico and the Caribbean Sea combined. Hurricanes are one of nature's most powerful forces that turn warm ocean water into powerful winds capable of mass destruction. Heavy rain also accompanies hurricanes and is not only a threat to coastal areas, but to areas hundreds of miles inland as well. In some cases, flooding occurs days after the storm actually goes ashore. Hurricanes also bring winds in excess of 74 mph, storm surge and tornadoes. It's critical to be aware of the dangers associated with hurricanes and their somewhat weaker counterparts, tropical storms, and to learn how you can reduce the loss of life and property if you're prone to these powerful forces. The links below and in the navigation above take you to more detailed information.

DURING A HURRICANE WATCH

- Listen to a battery-operated radio or TV for hurricane progress reports.
- Check emergency supplies.
- Fuel car.
- Bring in outdoor and anchor objects that cannot be brought inside.
- Secure buildings by closing and boarding up windows.
- Turn fridge to coldest settings.

- Store drinking water in clean bathtubs, jugs, and bottles.
- Review evacuation plan.
- Moor boat securely or move it to a designated safe place.

DURING A HURRICANE WARNING

- Listen constantly to radio or TV for official instructions.
- Store valuables and personal papers in a waterproof container.
- Avoid elevators.

If at home:

- Stay inside, away from windows.
- Keep a supply of flashlights and extra batteries handy. Avoid open flames.
- If power is lost, turn off major appliances to reduce power "surge".

If officials indicate evacuation is necessary:

- Leave as soon as possible. Avoid flooded roads and watch for washed-out bridges.
- Secure your home by unplugging appliances and turning off electricity and the main water valve.
- Tell someone outside of the storm area where you are going.
- If time permits, and you live in an identified surge zone, elevate furniture to protect it from flooding.
- Bring pre-assembled emergency supplies and warm protective clothing.
- Take blankets & sleeping bags to shelter.

- Fathers, like mothers, are not born. Men grow into fathers...and fathering is a very important stage in their development. - David M. Gottesman
- A man's children and his garden both reflect the amount of weeding done during the growing season. - Author Unknown
- It doesn't matter who my father was; it matters who I remember he was. - Anne Sexton
- For rarely are sons similar to their fathers: most are worse, and a few are better than their fathers. - Homer
- It's only when you grow up, and step back from him, or leave him for your own career and your own home...it's only then that you can measure his greatness and fully appreciate it. Pride reinforces love. - Margaret Truman
- You don't have to deserve your mother's love. You have to deserve your father's. - Robert Frost
- Blessed indeed is the man who hears many gentle voices call him father! - Lydia Maria Child
- The father who does not teach his son his duties is equally guilty with the son who neglects them. - Confucius
