GET AN INSURANCE CHECKUP

Want to save a little money?
Take a hard look at your
insurance coverage.

Experts recommend getting
an insurance checkup once
a year. You may find that
your situation has changed
and you need less, or more,
insurance. Laws in your
state may have changed or
it may be time to get a new
insurance company.

To make your insurance checkup easier, gather together the paperwork for all of your insurance coverage, including homeowners or renters insurance, life, auto, and any other type you may carry. This will help you compare costs vs. coverage.

Some important questions to ask:

- Am I eligible to discontinue PMI (private mortgage insurance) on my homeowners policy?
- Have any laws changed in my state requiring more or less coverage?
- Has my employer begun to offer more or less insurance, including disability, life, or supplemental insurance?
- Do I qualify for any additional discounts?
- Can I save money with a higher deductible?
- What is the best deal I can get on this type of coverage?

Once you've talked with your current agent and gotten a firm price on the insurance coverage you want, take the time to call around to other companies. You may be surprised at the savings you can find. If you do find a better deal elsewhere, it is easy to switch. Simply start up your coverage at the new company and then send a letter or fax to your original insurance agent stating when you would like your coverage discontinued. If there is remaining time on your policy, you will receive a refund of the amount you've already paid.

The Do's and Don't's of Recycling

RECYCLE:

- Steel, Tin & Aluminum Cans
- Plastic Bottles & Containers
- Office Paper, Brown Paper Bags & Newspaper
- Flattened Cardboard & Paperboard
- Junk Mail & Magazines

DOG DAYS OF SUMMER

The term “dog days of summer” is one that most people are familiar with. But do you know what it means? Technically, the “dog days of summer” run from July 3 to August 11, and are associated with the hottest days of the season.

The dog reference has to do with the night sky. Sirius, the brightest star in the summer sky, is in the constellation called Canis Major, which means “big dog.” Ancient people living in the Mediterranean region believed that such a large star as Sirius generated heat, just as the sun does. During the days from early July to mid-August, Sirius is in conjunction with the sun. This means that it rises and sets, and is in alignment with, the sun. These ancient people thought that the heat from the sun was being joined by the heat from Sirius, causing much warmer days. They called this time of year the “dog days,” after the constellation Canis Major.

Folklore about these unique days continued into relatively modern times. You can probably still find some older folks who remember the old wives’ tale about fish losing their teeth during the “dog days of summer.” With no teeth, the fish developed sore gums and were unable to feed until the return of cooler weather. For these folks, this helped explain why fishing at their regular fishing holes was so poor during the late summer months.
