Hurricane Season is Fast Approaching. ARE YOU PREPARED?

Hurricane preparedness is a natural part of living in Miami-Dade County. Below are some key tips to include in your personal hurricane plan. Make sure everyone in your household knows what they are supposed to do.

Have disaster supplies on hand.

- Flashlight and extra batteries
- Portable, battery-operated radio and extra batteries
- First aid kit and manual
- Emergency food and water
- Non-electric can opener
- Essential medicines
- Cash and credit cards
- Sturdy shoes

Check your insurance coverage and be sure it includes replacement coverage, especially for renters.

Evacuation Plans:

- Rehearse your evacuation plan with your household and leave extra time for traffic.
- If you live in an evacuation zone, make plans to move inland to a friend or family member's home.
- If you are electrically dependent you should evacuate for any category of tropical storm or hurricane.
- Emergency Evacuation Assistance Program. Residents who may need assistance evacuating from disaster should register for the

Emergency Evacuation Assistance Program by calling the Office of Emergency Management at (305) 513-7700 or download and application from the OEM website: https://www.miamidade.gov/global/service.page?Mduid_service=ser1470238193996672.

Communications:

Develop an emergency communication plan. In case family members are separated from one another during a disaster, have a plan for getting back together.

Water Is Life:

The most important part of your hurricane kit is water. Have 1 gallon per person per day. Your water heater can store several gallons of fresh water to use if there is no water pressure, especially in high-rise buildings.

Protect Your Windows:

Permanent shutters are the best protection. A lower-cost approach is to put up plywood panels. Use 1/2-inch plywood--marine plywood is best--cut to fit each window.

NATIONAL SAVE YOUR HEARING EVENT

Did You Know: May is Speech-Language-Hearing Month

Untreated hearing loss is surprisingly common. People may not even realize they're missing sounds and words. A hearing examination is the first step to addressing it.

2. RIC model.

DETECT-A-LEAK WEEK

Detect-a-Leak Week is held annually every May. This is the perfect time to give your home a once over, checking for leaks that may be costing you money! Even a small leak can add up to hundreds of dollars a year, and could damage surrounding fixtures, cabinets, or floors.

One of the biggest culprits is the toilet. You often cannot tell if your toilet is leaking simply by examining it. Place a few drops of food coloring, just enough to slightly color the water, in the main tank. Let it sit for several hours, then check the toilet bowl. If you see the color in the bowl, you have a leaky toilet and it needs to be repaired. Check for dripping faucets, pipes, and connections by examining all plumbing in your home. Use a lightweight cloth to wipe around each connection. If your cloth becomes wet, you have leaky plumbing that needs to be repaired.

Don't forget to stop those leaks that you can control! Turn faucets off all the way. Don't let water run when you brush your teeth. And don't use your toilet as a wastebasket. Instead of throwing items such as tissues in the toilet and flushing, use a small wastebasket in your bathroom instead.
