DON'T FORGET...FALL BACK

Daylight Saving Time begins for most of the United States at 2 a.m. on the **Second Sunday in March** and lasts until 2 a.m. on the **First Sunday of November**. Be sure to set your clocks back one hour at 2 AM on Sunday, **November 3, 2024**.

This is also a great time to change the batteries in your smoke and carbon monoxide detectors. Many fire departments encourage people to change their batteries in these detectors when they change their clocks, because it can be so easy to forget otherwise. "A working smoke detector more than doubles a person's chances of surviving a home fire," says William McNabb of the Troy Fire Department in Michigan. More than 90 percent of homes in the United States have smoke detectors, but one-third are estimated to have worn-out or missing batteries.

Did you know that? *Pumpkin Facts*

A pumpkin is really a squash? It is! It's a member of the Cucurbita family which includes squash and cucumbers.

That pumpkins are grown all over the world? Six of the seven continents can grow pumpkins including Alaska! Antarctica is the only continent that they won't grow in.

That the "pumpkin capital" of the world is Morton, Illinois? This self proclaimed pumpkin capital is where you'll find the home of the Libby corporation's pumpkin industry.

That the Irish brought this tradition of pumpkin carving to America? The tradition originally started with the carving of turnips. When the Irish immigrated to the U.S., they found pumpkins a plenty and they were much easier to carve for their ancient holiday.

- Pumpkins were once recommended for removing freckles and curing snake bites.
- The largest pumpkin ever grown weighed 2,749 pounds.

October is National Breast Cancer Awareness Month

How can I find breast cancer early?

The best way to find breast lumps that may be cancer is to do 3 things:

- Have regular mammograms.
- Have your doctor check your breasts.
- Check your breasts yourself every month.
- Doing all of these things gives you the best chance to find cancer as early as you can. Finding breast cancer early makes treatment much easier and more effective. More than 90 out of 100 women whose breast cancer is found early will be cured.

Changes to look for in your breasts

- Any new lump (which may not be painful or tender)
- Unusual thickening of your breasts
- Sticky or bloody discharge from your nipples
- Any changes in the skin of your nipples or breasts, such as puckering or dimpling
- An unusual increase in the size of one breast
- One breast unusually lower than the other

For more information you can visit the American Cancer Society's breast cancer Web site at www.cancer.org/ or call 800-ACS-2345. You can also visit the Breast Cancer Network's Web site at www.breastcancer.net.
